

ENVIRONMENTAL REMEDIATION & GEOTECHNICAL CONSTRUCTION SERVICES

ENTACT is committed to the successful creation and implementation of environmental and geotechnical construction solutions. Our industry-leading personnel have the proven experience to complete the most challenging projects.

ENTACT®

ENTACT.COM

DELIVERING INNOVATIVE COST EFFECTIVE SAFE SOLUTIONS

ENTACT is built to address the needs of clients at their facilities and properties nationwide. We directly self-perform environmental remediation and geotechnical construction work, using in-house personnel and equipment resources. ENTACT's roster is comprised of project managers, equipment operators, field technicians, field engineers, certified safety and quality control managers, and technical professionals with diverse capabilities and experience. ENTACT is a financially strong and stable contractor and we believe that our conservative management approach is vital to the long term success of our company and the interests of our clients.

Additionally, ENTACT possesses in-house professional resources in the geosciences, regulatory compliance, and civil engineering disciplines which enable us to be a more complete service provider and better implementer.

ENTACT's equipment inventory is comprised of general heavy construction machinery as well as self-designed and fabricated large specialty tools and equipment configurations for innovative environmental and geotechnical applications.

HEALTH & SAFETY

ENTACT's Behavior Based Health and Safety Program prevents losses through behavior modification. This system identifies and eliminates risk before it occurs and is an effective tool fully integrated into ENTACT's business philosophy and practices. Our aggressive attitude toward health and safety rewards safe behavior and does not tolerate unsafe behavior. ENTACT views safety as an obligation and our safety performance as critical to maintaining a leadership role in the environmental and geotechnical construction industry. Our continuous effort to improve and the dedication of each and every ENTACT associate have enabled ENTACT to achieve an industry leading health and safety record.

ENVIRONMENTAL REMEDIATION & GEOTECHNICAL CONSTRUCTION SERVICES

Dedicated individuals, possessing talent and experience, committed to the successful execution of safe, cost-effective, and schedule-adherent environmental remediation and geotechnical construction solutions.

- Self-Performed Nationwide Service
- Company-Owned Equipment
- In-House Technical Expertise
- In-House Treatability Capabilities
- National Safety Council Award Winner Annually Since 2005

ENVIRONMENTAL REMEDIATION

- Excavation
- Stormwater Management & Erosion and Sediment Controls
- Dewatering and Water Treatment
- Decontamination & Demolition
- Cap & Containment
- Radiological Services
- Permeable Reactive Barriers
- Residential Remediation
- MGP Site Remediation
- Coal Ash Impoundment & Landfill Closure

ENVIRONMENTAL DREDGING

- Mechanical Dredging
- Wetlands Remediation
- In-Situ Capping and Covers
- Liquids/Solids Separation, Dewatering & Water Treatment
- Isolation Barriers
- Subaqueous In-Situ Stabilization/Solidification (ISS)
- Habitat Restoration
- Shoreline & Bank Stabilization

GEOTECHNICAL CONSTRUCTION

- Ground Stabilization / Settlement & Liquefaction Mitigation
- Earth Retention / Structural Support
- Cutoff Walls
- Slurry Wall Construction
- Sheet Pile Installation

SOIL MIXING & TREATMENT

- In-Situ Solidification/Stabilization (ISS)
- Ex-Situ Treatment
- Chemical Fixation
- Chemical Oxidation
- Chemical Reduction
- Bioremediation
- Wet Soil Conditioning

GROUND IMPROVEMENT

- Deep Soil Auger Mixing
- Shallow Excavator Mixing – Mass Solidification
- Ground Improvement for Plant Expansion
- Ground Improvement for LNG Construction
- Soil Mixing - Wet and Dry
- Soilcrete Columns
- Soil-Cement Columns for Tank Pad Support
- Overlapping Columns
- In-Situ Gravity Retaining Walls
